KORUNG (Advanced Breed Suitability Test)

The purpose of this test is to re-evaluate dogs which have already received a basic breeding certification (ZtP) to determine if they should continue to be used in a breeding program. The Korung re-evaluates conformation, temperament and working ability. It is scored on a pass/fail basis.

Requirements

1. Dogs must have an OFA number, "acceptable" Penn Hip certification, or hip certification from country of origin.
2. Dogs must have rating of "V" (Excellent) or "SG" (Very Good) at three Sieger Shows under two different FCI recognized judges.
3. Male Dogs: Minimum age is 36 months at date of test. Successful completion of SchH III by the date of entry. Successful completion of AD by a DVH-sanctioned organization and a ZtP.
Female Dogs: Minimum age is 30 months at date of test. Successful completion of SchH I by the date of entry. Successful completion of AD by a VDH-sanctioned organization and a ZtP.
4. Copies of all documents described must be sent with the entry; originals must be brought to the show.

Conformation

Same as for the ZtP, but must also have 3A or darker eyes and ½ dark pigment in the mouth to pass.

Temperament: Same as for the Ztp.

Working Ability

This test approximates the SchH III Protection routine.

Search: Dog is sent (about 40 paces) to search and hiding place.

Bark & Hold: Dog finds agitator and should bark continuously. At the judge's signal the handler approaches to within 4 paces from the dog. At the judge's signal the dog is called to heel. Agitator is told to "step out", "hands up", dog is told "down". Handler searches agitator for weapons then goes to search hiding place.

Escape: As the handler is out of sight, the judge signals the agitator to escape. The dog must prevent the escape by biting hard. Agitator comes to a standstill, handler commands "out". Dog does "bark and hold" when bite released.

Re-Attack: On the judge's signal the agitator re-attacks the dog, threatening with stick. When the dog has a firm bite, he is hit twice with the stick. Agitator comes to a standstill, dog commanded to "out". On judge's signal, handler returns to dog and takes him to the end of the field.

Courage Test: Agitator is hiding at opposite end of field. On judge's signal the agitator comes out, is verbally challenged by the handler, and then runs away. The dog is sent to stop him (must go in a straight line). When the dog is about 40 paces away, the agitator turns and tries to chase the dog using voice, forward motion and waving stick (not Hitting). Without being deterred the dog must bite hard and hold the agitator. Agitator comes to standstill, dog commanded "out".

Re-Attack: The agitator will immediately re-attack the dog; dog bites hard and is hit twice with stick. Agitator comes to standstill, dog commanded to "out". At the judge's signal, handler comes across field and takes dog off. Dog must "out" each time he is commanded to do so.

ZTP AND KORUNG INFORMATION

Temperament

Two shots will be fired 15'-20' from the dog as he is walked away on a loose lead. Crowd test: Dog must walk through a group of 4-6 people as they move and stand still. The dog and handler stand still, the crowd walks up forming a tight circle around the dog and handler, then move away at the judge's command. This is done several times at slow, normal or fast pace as directed by the judge.

Working Ability

Attack on Handler: Dog must react to attack on handler by biting sleeve and taking two stick hits. Agitator stands still, dog commanded to "out", release bite on command.
